

Wolfman Expedition Dry Duffle

Congratulations for purchasing the most weatherproof bag that we make!!

This bag includes the following:

- 1 Shoulder Strap
- 2 Mounting Straps

The Rear of the bag has the Wolfman Logo.

Roll the top down 3-4 times for maximum seal.

Use top and side compression straps to snug the load.

Mounting Ideas:

For Maximum Security thread the mounting straps through each of the D-rings front and rear. (The rear has two pairs of D-rings top and bottom; these are used to mount other items behind the Expedition Dry Duffle such as a tent or a sleeping bag.)

The mounting straps can attach to the passenger peg brackets, frame rail, or hard Bag brackets (if equipped). Or even to the grab handles or the rack if equipped.

Have Fun, be Safe!! If you have any questions please call us at 800-535-8131.
